

Ziploc Ice Cream

Ingredients:

- 1/2 Cup Milk (doesn't matter what kind)
- 1 Tbsp. Sugar
- 1/4 Tsp. Vanilla or any other flavors
- 1 Ziploc sandwich bag
- 1 gallon Ziploc bag
- 6 Tbsp. salt or Ice Cream salt
- 3 Cups of ice
- Optional: pecans, chocolate chips

Directions:

Add all the ingredients, except the ice and salt into the Ziploc sandwich bag and zip it shut. Place the sandwich bag into the gallon Ziploc bag. Add the ice and salt and zip it shut. Shake, turn, toss and mix the gallon bag for 3-5 minutes.

Comments:

- Don't try doubling the recipe because the ice cream will not freeze enough.
- Be sure you get all of the salt off of the sandwich bag before opening it.
- You can reuse the gallon bag to make more ice cream. Just pour the water out and add more ice and salt with the new sandwich bag of ingredients.
